

# Slim Jim Compact Homes

You've probably met Slim Jim before. He's the outdoorsy type who loves to bring the outside to the inside. He loves nature, the birds chirping, and the world outside of his four walls. SLIM JIM's footprint doesn't change, but he can still offer up a host of fully functional design options that are perfect for rental and holiday accommodations. As with all of our SLIM designs, the creation of division is the key to ensuring privacy and maintaining some natural separation. SLIM JIM is bold, clean, and contemporary – the perfect style for all early or established areas. Sustainable materials have been carefully selected in order to blend harmoniously into any natural landscape. For even more flexibility, SLIM JIM comes with the option of enclosing the breezeway between the two living areas, adding an extra 15 m<sup>2</sup> of natural living space

Own less.  
Live more.

Who says that size is the only thing that **matters? Definitely not us.**

Our compact homes are the result of forward thinking design. Using creativity and ingenuity, we're taking small and making it BIG.

We believe in space efficient housing, which allows for living in smaller quarters without sacrificing comfort and livability. Our designs are so efficient that you won't miss the extra space you're used to.

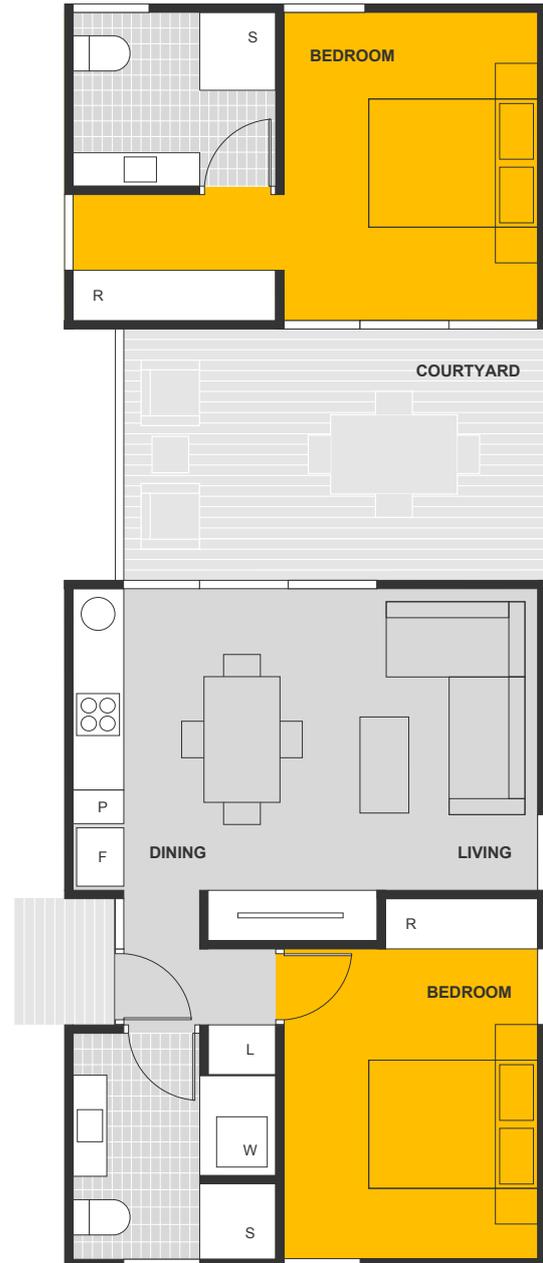

Our homes can be used for all kinds of purposes. They're great as granny flats, beach batches, chalets, or as short stay accommodation.

You can put them wherever you want – in the city, in the country, on the side of a hill, in a sand dune, or anywhere else that strikes your fancy. We can put these beauties anywhere.

Because of our focus on simplicity and living essentials, our homes have a spacious feel and an efficient, minimalist interior.

The striking lines and bold proportions of the facades create a light-filled, spacious interior that you'll be proud to call home.

We are leading the new worldwide movement towards smaller homes and more earth-friendly lifestyles.
