

# Fat Boy Compact Homes

Fat Boy isn't out of shape at all, he's actually perfectly proportioned! He might be a chubby little fella, but it's in all the right ways. FAT BOY is perfect as a separated granny flat for a family member that you actually like, or as accommodation for your guests. With designs to suit all approaches, these are ideal models for smaller, inner city properties. The FAT BOY features built in, passive privacy and optional weather-protected outdoor living.

Own less.  
Live more.

Who says that size is the only thing that **matters? Definitely not us.**

Our compact homes are the result of forward thinking design. Using creativity and ingenuity, we're taking small and making it BIG.

We believe in space efficient housing, which allows for living in smaller quarters without sacrificing comfort and livability. Our designs are so efficient that you won't miss the extra space you're used to.

Our homes can be used for all kinds of purposes. They're great as granny flats, beach batches, chalets, or as short stay accommodation.

You can put them wherever you want – in the city, in the country, on the side of a hill, in a sand dune, or anywhere else that strikes your fancy. We can put these beauties anywhere.

Because of our focus on simplicity and living essentials, our homes have a spacious feel and an efficient, minimalist interior.

The striking lines and bold proportions of the facades create a light-filled, spacious interior that you'll be proud to call home.

We are leading the new worldwide movement towards smaller homes and more earth-friendly lifestyles.
